

OGO CHUKWUEMEKA OKEREKE

Data Analyst | Power BI · SQL · Python · Excel

Abuja, Nigeria (Open to Remote/Relocation) | +234 803 606 4199 | ogochukwuemekaokereke@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst experienced in building Power BI dashboards and SQL/Excel reporting solutions for sales and business intelligence use cases. Skilled in DAX, data modeling, ETL-style data cleaning, and Python (Pandas, NumPy) for turning raw data into decision-ready insight. Delivered a 15% gain in operational efficiency and a 40% cut in manual reporting time in a business analytics role, and independently diagnosed a 53% revenue decline while building end-to-end CRM pipeline analytics.

TECHNICAL SKILLS

Visualization & BI: Power BI (DAX, Data Modeling, Interactive Dashboards), Tableau, Business Intelligence Reporting

Data & Querying: SQL, Excel (Power Query, Pivot Tables, VLOOKUP, Advanced Formulas), ETL & Data Validation

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)

Analysis: Data Wrangling, Data Cleaning, Statistical & Trend Analysis, Cohort Analysis, KPI Development, Root Cause Analysis, Ad Hoc Reporting

Core Strengths: Stakeholder Communication, Problem Solving, Attention to Detail, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Data Analyst — Celerity Network Ltd, Abuja, Nigeria

Dec 2024 – Mar 2025

- Analyzed sales performance, customer behavior, and discount impact in Power BI, driving a 15% gain in operational efficiency and 95% data accuracy across outputs.
- Automated recurring reporting pipelines using SQL and Power Query, cutting manual report generation time by 40%; delivered ad hoc analyses on pricing, customer concentration, and pipeline health.

FEATURED PROJECTS

Metro Sales Performance Analysis

Excel, SQL

- Investigated a 53% year-on-year revenue decline (\$3.61M sales, \$44.6K profit, 1.2% margin) by building a 2-page interactive Excel dashboard spanning 4 product categories, 3 regions, and 4 years.
- Identified Accessories as the highest-margin category (47%) despite lower sales volume and flagged a July seasonal trough (\$153K vs. \$445K peak), informing inventory and campaign recommendations.

CRM Sales & Pipeline Analytics

Power BI, SQL, Excel

- Built an end-to-end CRM analytics solution tracking pipeline health, deal aging, win/loss ratios, and customer concentration risk.
- Improved sales forecasting accuracy and pipeline velocity through structured data modeling and DAX-driven KPIs for the business development team.

TRAINING & CERTIFICATIONS

Data Analytics Programme — Data Immersed Community, Remote

Jun 2025 – May 2026

- Completed a 6-month Excel/SQL/Power BI programme plus a Python for Data Analytics cohort (Jan–Jun 2026), culminating in a panel-assessed capstone spanning data wrangling to insight communication.

Data Analytics Training — The Analytics School, Remote

May – Jun 2025

- Reduced data errors by 30% by cleaning and validating multi-source datasets in Power Query and SQL; built 3 Power BI dashboards with 15+ DAX measures, improving institutional outcomes by 10%.

Google Professional Data Analytics Certificate — Google/Coursera, 2023

EDUCATION

B.Sc. Physics — University of Abuja, 2017 | Quantitative coursework in statistics and data analysis
